Video Delivery

What You Get:

DESCRIPTION

The Platinum Package significantly expands production options and features, and is ideal for a couple or small group with each person interviewed individually and as a group - Add-On costs required for more than 2 storytellers. Or we'll thoroughly explore one person's life. We can go deep into a family's roots using stories from past generations with historical context about the world in which they lived

FINISHED VIDEO LENGTH

Interviews, photos & other source material artistically edited into a *105 to 120 minute* documentary-style video

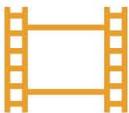

BEHIND THE SCENES

Includes full, unedited interview recordings with meticulously hand-edited transcripts and subtitles, along with curated behind-the-scenes photographs from the filming day.

HIGHLIGHT REEL

20-30 minute highlights video using interview footage, additional 'b-roll' footage and other source material

VIDEO FORMAT

HD video-USB drive & online video hosting

Planning & Filming:

PRODUCTION PLANNING

Preliminary planning consultation with interviewer via Zoom, plus in-person consultation and location assessment with interviewer and film tech at multiple locations *before filming day*

Planning & Filming:

THE INTERVIEW DESIGN

Open-ended questions provided before meeting day plus an in-person meeting with client to research interviewee's past for custom question creation. Questions incorporating client suggestions created after meeting. We'll also perform historical research that pertains to the interviewee's experiences, locations, events, etc.

"STAGING" FOR VIDEO TAPING

3-5 camera setups as needed to cover multiple subjects from several angles

VIDEO PRODUCTION EQUIPMENT

Two pro 4K cameras plus specialty camera equipment (drone, go-pro, time lapse, special lenses, etc.), movie pro lighting package

AUDIO PRODUCTION EQUIPMENT

Two wireless lapel microphones plus two boom microphones, multi-channel digital audio compressor & mixer plus a laptop computer

VIDEO PRODUCTION TEAM

3 - 4

INTERVIEWEE(S)

1 - 5

Video Editing Details:

VIDEO EDITING

Thoughtful editing to remove interviewer questions, pauses, repetition, and distractions, paired with story-driven design to improve pacing and emotional impact. Includes detailed media logging and restructuring of interview footage to create a more cohesive, coherent narrative, along with seamless integration of multi-camera footage and supporting source materials. The result is a polished, documentary-style film that meaningfully elevates each participant's story.

POST EDITING ENHANCEMENT

Advanced audio cleanup and picture correction, featuring digital reframing for stronger composition, subtle zooms and pans, and visual enhancements designed to elevate clarity, focus, and overall presentation.

MUSIC

Extensive, thoughtful integration of background music, transitional scoring, and sound design, utilizing our in-house library of high-quality, royalty-free audio assets.

**Client to provide personal photographs, documents, maps, or other images in digital format. Additional photos can be included and high resolution image scanning can be arranged at additional cost, see ADD-ON section [HERE](#)*
